### How To Identify A Chevy

**POSITION 1.** The first position of the VIN is held by a character that identifies the country or final assembly point of the vehicle. This shows where the Chevrolet was made. The first position may also indicate where the Chevrolet headquarters is located. 1 or 5 indicate your car is U.S. built.

### Chevrolet VIN Decoder | YOUCANIC

The first five characters for all years indicate the assembly plant and date of manufacture. For Chevys made in 1969 or before, the code's sixth and seventh characters identify the engine and horsepower. For example, if the sixth and seventh characters for a 1967 Impala read "HA," the engine is a 327 V8 with 275 horsepower.

Chevrolet Quadrajät carburetors would have a 0, 1, or even a 2. The last two remaining digits determine whether the carburetor came from a car equipped with an automatic or manual transmission. Usually an even number will indicate an automatic car, while odd numbers indicate a manual transmission.

### Choose Your Quadrajät: Number Identification Guide

The last identifying feature is the angle of the deck. While small- and big-block Chevy engines have 90-degree decks in relation to the pis- ton bore, Ws have a 74-degree deck. Only two sizes of W engines were offered, and therefore it's much easier to identify a W block than a typical small- or big-block Chevy engine.

### Chevy 348-409 Engine Block Guide

Chevrolet's six-cylinder engines are easily identified due to Chevy's efficient engine numbering system. The code is seven to eight digits long, consisting of numbers and letters. The suffix gives the year vehicle, horsepower and transmission pairing, while the prefix gives the date and location of manufacture.

### Chevy Six-Cylinder Engine Identification | It Still Runs

To determine the year of 235 or 216 engines, look just above the starter on 235 or maybe remove starter on 216 and there will be a letter followed by 2 or 3 numbers. The letter stands for the month, the next one to two digits are the day of the month and the last is the year.
